Premium materials for Aerospace Application

AKD 2376

Premium hot-melt resin system

Designed to ensure performance for structural composite parts in aerospace industry

APPLICATION

DURABILITY IMPROVEMENT

- Cost savings with lighter composites
- Greener environment
- Optimized design thanks to multifunctional materials

BENEFITS

- Temperature resistance up to 170°C
- High mechanical resistance
- Available as hotmelt resin to access composite manufacturing with prepregs

MORE FEATURES

- Comply with environmental concerns by limiting waste disposal
- Also available as semi-solid resin film for the easiest way to manufacture parts
