Premium materials for Aerospace Application

LEO 2376

Premium semi-solid resin film

Designed to ensure performance for
structural composite parts in aerospace industry

APPLICATION

DURABILITY IMPROVEMENT

- Cost savings with lighter composites
- Greener environment
- Optimized design thanks to multifunctional materials

BENEFITS

- Easy-to-process by Resin Film Infusion
- High mechanical resistance
- Available as semi-solid resin film for the easiest way to manufacture

MORE FEATURES

- Temperature resistance up to 170°C (process by press or autoclave)
- Compliant with environmental concerns by limiting waste disposal
- No heavy cleaning of production equipment
