

INNIVIUM REPAIR Apps

Premium materials for Oil & Gas Application

AKD SUBSEA

Premium resin system

Underwater curing system

APPLICATION

DURABILITY IMPROVEMENT

- Optimal solution for under water and wet environment pipe repair
- Corrosion proof and light weight composite substitute
- Reduce Maintenance cost
- Limit Systems Shut-Down

BENEFITS

- Easy-to-process: mix and apply under water
- High mechanical resistance owing to nanochemicals
- Suitable for oil, gas, water and power

MORE FEATURES

- Not moisture sensitive (no foaming)
- High chemical resistance
- Temperature resistance up to 50°C
- No highly hazardous chemicals such as isocyanates for polyurethane
