

AKD SUBSEA PRIM

Premium resin system

Primer for underwater repairing

APPLICATION

DURABILITY IMPROVEMENT

- Prepare & protect under water corroded surfaces
- Reduce Maintenance cost
- Limit Systems Shut-Down

BENEFITS

- Easy-to-process: mix and apply this coating by hand lay-up in high moisture environment and under water
- Improve chemical resistance of pipe surfaces for higher life time repairs
- Temperature resistance up to 70°C
- Suitable for oil, gas, water and power

MORE FEATURES

- Fast curing system
- Not moisture sensitive (no foaming)
- No highly hazardous chemicals such as isocyanates for polyurethane
